

Tutorial 2 Report

23-24 November 2022, held in SRCE, Zagreb

About Tutorial 2

DECriS Tutorial 2 was organized by SRCE E-Learning Centre, which holds a central role in the systematic implementation of e-learning at the University of Zagreb as well as on the national level. Main objectives of the E-learning Centre are to provide support to teachers, students, e-learning teams and institutions, to provide and maintain a reliable and generally accessible university platform for e-learning, to support the university network of people involved or interested in e-learning and to promote and foster the e-learning implementation.

Tutorial 2 was held as a face-to-face short-term joint staff event in Zagreb at the University of Zagreb University Computing Centre (SRCE) premises.

Topics

The topic of Tutorial 2 was “**Advanced use of Moodle**”, aimed to involve participants from partner HEIs in the process of learning design and implementation of their own material using Moodle platform. Tutorial 2 has covered the following subtopics: ***ABC workshop on learning design; How to make questions and Quiz activity in Moodle; Lesson activity in Moodle*** and ***H5P in Moodle***.

Online course and post-training activities and assessment

In addition to the live tutoring that was delivered face-to-face during the joint staff event in Zagreb, the learning process is supported by the online course (*Tutorial 2 Zagreb 2022*) that is available for Tutorial 2 participants on DECriS Moodle platform (URL: <https://decris.ffos.hr/platform/>). This online course contains educational resources and activities that are designed for the post-training skills assessment as well as the further study and usage.

The training also includes the individual practice work in the form of the post training assignment. The participants are prompted to choose and complete two out of three available tasks (*Creating a quiz activity with two question types; Creating a lesson activity with two content pages and two question pages; Creating a H5P activity*). Upon the

completion, the tutors will review the assignments and provide the feedback to each participant.
