Digital Education for Crisis Situations: Times when there is no alternative (DECriS)

Dear colleagues,

On November 24 and 25, **2022** the **third Multiplier Event** of the Erasmus+ Project **Digital Education for Crisis Situations: Times when there is no alternative (DECriS)** (<https://decris.ffos.hr/>) will take place in **hybrid mode** (via Adobe Connect videoconferencing system and face-to-face) at the University of Zagreb University Computing Centre SRCE, Zagreb, Croatia.

DECriS is an Erasmus+ Project (2020-1-HR01-KA226-HE-094685) coordinated by the Faculty of Humanities and Social Sciences, University of Osijek (Croatia), with partners from Stiftung Universität Hildesheim (Germany), University of Barcelona (Spain), University of Library Studies and Information Technologies (Bulgaria) and Computer Center of University of Zagreb (SRCE), (Croatia) and four associated partners.

Under the title **Critical elements in designing, adopting and using Open Educational Resource (OER)** the seminar will present outputs of the DECriS project in the period May 2022 – November 2022. The focus is on the list of critical success factors (such as, for example, scope, target group, quality of the content, currency, authority, didactic approach, use of different e-learning components, use of media, ease of use, security issues, availability, etc.), and an established typological classification. Part of the event will be dedicated to digital education and lessons learned in a pandemic. At the same time, national and international experts and guests will present their work and experiences related to the topic, with the aim of facilitating and making possible a discussion.

### Timetable:

ME-3 in Zagreb (24/11/2022, from 12:30 to 17:30 & 25/11/2022 from 9:00 to 13:00 CET

The event will be located at SRCE Building, Ulica Josipa Marohnića 5, Zagreb, basement, Room E and will be able to follow online

## PROGRAMME

### First Day (November 24<sup>th</sup>)

12:30 – 13:00	Registration
13:00 – 13:15	<b>Opening of the Multiplier Event</b> Ivan Marić, Director of the University Computing Centre SRCE Moderator: Sandra Kučina Softić (Institutional Coordinator of DECriS Project), University Computing Centre SRCE)
13:15-14:00	Keynote speech: <b>How can Open Educational Practices become mainstream in Europe?</b>

	<p>Abstract:</p> <p>Open Education is an umbrella term or movement with many dimensions that share a common viewpoint “everyone should have the freedom to use, customize, improve and redistribute educational resources without constraint” (Cape Town Open Education Declaration, 2012). The UNESCO (2019) recommendation on OER was an important step in providing a policy manifesto to support the mainstreaming of Open Educational Resources (OER). However, although Open Education has been a feature of educational research and practice for almost thirty years, its adoption has been fragmented and still remains on the margins (Zawacki-Richter, et al., 2020). How can Open Educational Practices (OEP) become mainstream in Europe?</p> <p>In order to support the growth of Open Education, we must address a number of key challenges:</p> <ol style="list-style-type: none"> <li>1. Lack of awareness of Open Education among Educators</li> <li>2. The financial unsustainability of Open Education Resources initiatives</li> <li>3. Underdeveloped Open Education enabling policies at institutional, national and European levels</li> <li>4. Disaggregated OER technical ecosystem</li> </ol> <p>We must learn from our colleagues in the Open Science movement about how to place Open Educational Practices on the top of the policy agenda at national and international levels.</p> <p>Orna Farrell, Dublin City University, <a href="https://www.dcu.ie/policyandpractice/people/orna-farrell">https://www.dcu.ie/policyandpractice/people/orna-farrell</a></p>
